

REMARKS/ARGUMENTS

In the Claims:

The present application is a national stage filing of PCT/GB2004/001626. Applicant notes that amendments to the claims were filed under PCT Article 19, which amendments resulted in the addition of 4 claims - 3 independent claims and one dependent claim. Consequently, the total number of claims in the present application should be 37, not 33. Said amendments were pointed out on Applicants Transmittal Letter To The United States Designate/Elected Office as being transmitted by the International Bureau (see item 7). As such, the claims presented by Applicant in this preliminary amendment are the claims as amended under PCT Article 19.

Applicant has also amended the claims of the present application to remove any multiple dependency recited therein. Accordingly, the additional claim fees due have been modified to reflect both the additional claims resulting from the PCT Article 19 amendments, and the removal of the multiple dependent claims. Submitted herewith is a revised fee calculation sheet that reflects the foregoing changes, as well as payment for the additional claim fees in the amount now due.

Respectfully submitted,

Date: 08/07/2006
